## **DRAFT PROTOCOL TO THE CONVENTION ON INTERNATIONAL INTERESTS IN MOBILE EQUIPMENT ON MATTERS SPECIFIC TO RAILWAY ROLLING STOCK**

THE STATES PARTIES TO THIS PROTOCOL

CONSIDERING it necessary to implement the Convention on International Interests in Mobile Equipment (hereinafter referred to as *the Convention*) as it relates to railway rolling stock, in the light of the purposes set out in the preamble to the Convention,

MINDFUL of the need to adapt the Convention to meet the particular requirements of railway rolling stock and their finance,

HAVE AGREED upon the following provisions relating to railway rolling stock:

### **CHAPTER I GENERAL PROVISIONS**

#### *Article I Defined terms*

1. In this Protocol, except where the context otherwise requires, terms used in it have the meanings set out in the Convention.
2. In this Protocol the following terms are employed with the meanings set out below:<sup>1</sup>
  - (a) “guarantee contract” means a contract entered into by a person as guarantor;
  - (b) “guarantor” means a person who, for the purpose of assuring performance of any obligations in favour of a creditor secured by a security agreement or under an agreement, gives or issues a suretyship or demand guarantee or a standby letter of credit or any other form of credit insurance;
  - (c) “insolvency-related event” means:
    - (i) the commencement of the insolvency proceedings; or
    - (ii) the declared intention to suspend or actual suspension of payments by the debtor where the creditor’s right to institute insolvency proceedings against the debtor or to exercise remedies under the Convention is prevented or suspended by law or State action;
  - (d) “primary insolvency jurisdiction” means the Contracting State in which the centre of the debtor’s main interests is situated, which for this purpose shall be deemed to be the place of the debtor’s statutory seat or, if there is none, the place where the debtor is incorporated or formed, unless proved otherwise;

---

<sup>1</sup> The Official Commentary on Article 7(b) of the Convention makes clear that the “power to dispose” includes the power to permit the use of any object. The Drafting Committee considers therefore that neither a definition nor a similar provision should be added in this Protocol to confirm this position.

- (e) ~~“public service rolling stock” means railway rolling stock habitually used for transporting the public on scheduled services, together with locomotives and ancillary railway rolling stock habitually used to provide such services;~~
- (ef) ~~“railway rolling stock vehicle” means a vehicle<sup>s</sup> movable on ~~or directly above~~ a fixed railway track or directly on, above or below a guideway, ~~together with~~ fixed superstructures, ~~or racks,~~ ~~installed or designed to be installed on such vehicles,~~ ~~including all~~ traction systems, engines, brakes, axles, bogies, ~~and~~ pantographs, ~~and in each case including~~ accessories and other components, equipment and parts, in each case installed on or incorporated therein, the vehicles, and together with all data, manuals and records relating thereto, or attached thereto;~~
- (g) ~~“railway rolling stock” means railway vehicles and all operating and technical data, manuals, notebooks and other records identifiable in relation to a specific railway vehicle.~~

#### *Article II*

~~2. For the purposes of Chapter V of the Convention, the Supervisory Authority shall, in regulations, prescribe a system for the allocation of identification numbers by the Registrar to enable the unique identification of items of railway rolling stock.
