## INTRODUCTORY NOTE

(by the Unidroit Secretariat)

As part of its efforts directed toward increasing the involvement of representatives of the different industries intended to be affected by the future Convention and thereby in particular procuring the formulation of a representative industry view on the application of the future Convention to each of the categories of agreement contemplated in its sphere of application provisions, the Unidroit Secretariat is in the process of constituting an *ad hoc* working group to formulate a representative industry view on the application of the future Convention as drafted to date to space-based equipment. One of the parties invited to participate in this working group, Mr Scott H. Siegel, General Counsel and Secretary, Lockheed Martin Finance Corporation, on 14 May submitted comments on the revised draft articles prepared by the Chairman of the Study Group for the session of the Drafting Group, due to be held in Würzburg from 24 to 26 July 1997. These comments are reproduced hereunder, following an introductory extract from the letter under the cover of which they were submitted.
