### **Preparation of a Portuguese version of the UNIDROIT/FAO/IFAD Legal Guide**

Under an agreement with the Authors of the Guide, a team of Brazilian legal academics has translated the *UNIDROIT/FAO/IFAD Legal Guide on Contract Farming* into Portuguese, and will have the volume distributed by a Brazilian publisher.

Translators of the Legal Guide: Iacyr Aguilar Vieira – *Retired Associate Professor from Universidade Federal de Viçosa and Lawyer*; Regel Antônio Ferrazza – *Adjunct Professor and Coordinator, Faculty of Law, Universidade Federal de Viçosa*; Nunziata Stefania Paiva – *Judge at the Court of Justice – Comarca of Corumbáiba, Goiás*; Kassia Watanabe – *Assistant Professor, Universidade Federal do Recôncavo da Bahia*

The printed book is expected to be released during the Year 2018.

The availability of a Portuguese version of the Legal Guide will be instrumental for its dissemination in Brazil - one of the world's largest agriculture countries -, as well as in all Portuguese-speaking countries, and will contribute to enhance a favorable legal environment for contract farming in the concerned countries and for all contract farming operators.
