Introduction

1. The Convention on International Interests in Mobile Equipment (the Convention) and the Protocol to the Convention on International Interests in Mobile Equipment on Matters Specific to Aircraft Equipment (the Aircraft Protocol) were both opened for signature on 16 November 2001 at the conclusion of a diplomatic Conference held under the joint auspices of the International Institute for the Unification of Private Law (UNIDROIT) and the International Civil Aviation Organization (ICAO). Both the Convention as applied to aircraft objects, and the Aircraft Protocol, entered into force on 1 March 2006.

UNIDROIT then invited the Governments of Contracting States to make comments as to the manner in which the international regime established by the Convention and Aircraft Protocol had operated in practice in its jurisdiction during the period to be covered by the Report.

APPENDIX 2**OBSERVATIONS FROM STATES AS TO THE MANNER IN WHICH THE INTERNATIONAL REGIME ESTABLISHED BY THE CONVENTION AND AIRCRAFT PROTOCOL HAS OPERATED IN PRACTICE
(2017 – 2019)****AFGHANISTAN**

Article 82 of the Civil Aviation Law explicitly states:

"Import of aircraft, engines and its downstream projects, maintenance and repair machinery for aircraft, all ground vehicles related to air transport services (aircraft, means transport of travel equipment and property to the destination of aircraft capture and unloading, scales for the weight of travel equipment and property, aviation firefighting vehicles, explosives detection devices and weapons to ensure flight safety at airports (documents of civil aviation institutions (air travel tickets, air waybills, airline scheduling documents) "Publications of the International Civil Aviation Organization (ICAO), the International Meteorological Organization (WMO) and the International Air Transport Association (IATA) are exempt from customs duties and products"."

The amendment contained in the Aircraft Equipment Protocol, does not require any additional comments from Afghanistan Civil Aviation Authority and therefore approved by ACAA.

BRAZIL

The internal regulation to the application of the Cape Town Convention by the Brazilian National Civil Aviation Agency (ANAC) started with the publication of ANAC Resolution No. 309 of 2014.

The number of instruments for Irrevocable Authorization for Cancellation of Registration (IDERA) has been increasing, encompassing almost 100% of large aircraft that operate on regular air transport. This was already expected since almost 100% of the aircraft operated by Brazilian airlines are contracted through international leasing.

Brazil faced in 2019 a bankruptcy process with "OCEANAIR Linhas Aéreas", publicly known as AVIANCA. On that occasion, during a short period, ANAC was prevented from complying with the terms of the Convention due to a Court decision.

It is important to highlight that ANAC has always complied with the terms of the Convention, being a reference in fulfilling the average term for registration cancellations, at the request of the lessor, based on IDERA. The term established in the Convention is 5 business-days and the average term of ANAC has been 2 working days.

Resolution No. 309/2014, above mentioned, was revised in 2019.

IRELAND

The application of the Convention and Aircraft Protocol as implemented in Ireland has functioned effectively and efficiently for Irish users and related interested parties in the period.

2017, Ireland by way of Government Order ([Statutory Instrument 187 of 2017](#)) adopted the "Alternative A" provisions of Article XI of the Aircraft Protocol in its entirety in respect to insolvency proceedings.

In January 2019, the International Registry - operated by Aviareto in Dublin - reached the milestone of 1 million registrations representing a value of over half a trillion dollars of financial interests in aircraft assets.

LATVIA

From 2017 to 2019, the local authorities and aviation stakeholders have strictly followed the Convention in all matters covered by the Convention. For instance, despite the IDERA declaration not having made up until 2020, the national Civil Aviation Agency has accepted IDERAs submitted to it in line with the provisions of the Convention. Private stakeholders have also followed provisions such as registration or new aircraft on the International Registry and other matters governed by the Convention and especially when dealing with aircraft financiers (lessors). In practice, the Convention has been followed and abided by both – the public and private sector.

MYANMAR

With regard to the UNIDROIT's letter Ref.: DC9DEP/1396 dated 10 December 2020, we wish to advise you that Myanmar records and retains Irrevocable De-registration and Export Authorizations (IDERAs) and Certified Designee Confirmation Letters (CDCLs) that have been lodged in respect of the relevant aircraft in accordance with AIC 02/2014 published on 20 October 2014. We have no additional comments to make on the report.

SWEDEN

The Convention and the Aircraft Protocol came into effect in Sweden on 1 April 2016. Already prior to its effectiveness in Sweden, a large number of registrations and searches were performed by Swedish related transactions according to latest available statistics.

Given the response in the market of the Convention and the Aircraft Protocol the number of registrations and searches is well in line with expectations on the basis of the number of transactions involving Sweden.

According to practitioners in the field, the availability and service level of the International registry is well in line with the expectations and the required service level. Equally, the application of the Convention and the Aircraft Protocol as incorporated in Sweden has functioned well and the effects of the Convention and the Aircraft Protocol for Swedish users and interested parties has had the desired effect.

It shall also be noted that in the few insolvency proceedings in respect of Swedish airlines NextJet (bankruptcy) and BRA (company reorganisation) the rules under the Convention and the Aircraft Protocol have been respected and adhered to.

TURKEY

The implementation of the Convention and the Aircraft Protocol within the jurisdiction of Turkey during the period 2017 – 2019 can be summarized as follows:

- Pursuant to the Article XIII of the Protocol, there were 336 single transactions in relation to the registration and the cancellation of IDERAs,

- Pursuant to the Convention, the Aircraft Protocol and the domestic regulations, there were 13 single transactions in relation to the rejection of the letter of application for IDERAs,

- According to the request of the "authorised party", there were 7 aircraft de-registration and export transaction.

Moreover, in the year 2017, some amendments had been made in our fundamental domestic regulation which is SHT-IDERA, according to the needs of the market and the Directorate General of Civil Aviation of Turkey. These amendments entered into force on July 25, 2017.
