2.1.5.  "Consent" means an electronic consent to a registration.

2.1.6.  "Contact information" means, with respect to the entity or natural person to whom such information relates, such entity’s or natural person’s name, administrator and that administrator’s telephone number and electronic address.

Section 3 GENERAL PROVISIONS

3.1 The International Registry is established as the facility for effecting and searching registrations under the Convention and the Protocol.

3.2 Since the International Registry merely provides notice of registrations, the facts underlying any such registration or registered interest shall determine whether it falls within the scope of the Convention and the Protocol. Without limiting the foregoing, registrations of pre-existing rights and interests or assignment thereof shall have no legal effect under the Convention and the Protocol, except where, by virtue of a declaration under Article 60(3) of the Convention, registration thereof is required. The contents of this Section 3.2 shall be prominently displayed by the International Registry as a general cautionary note on its website. Neither this Section, nor the technical function of the Registry, shall relieve any party making a registration that ought not to have been made or is incorrect, from liability under applicable law.

3.3 The Registrar shall perform the functions specified in the Convention, the Protocol, these Regulations and the Procedures.

3.4 The International Registry shall be accessible 24 hours a day, 7 days a week, except if precluded by maintenance performed outside peak periods, or technical or security problems, as set out in the Procedures.

3.5 The Registrar shall not undertake other operations or responsibilities nor permit other parties to have access to or use the facilities of the International Registry without the prior written consent of the Supervisory Authority.
3.6 Technical support shall be provided to registering persons, searching persons and administrators by a help desk of the International Registry, which shall be available during times set out in the Procedures.

3.7 The International Registry may be used for no other purpose than that set forth in Sections 3.1 and 3.2, unless approved in advance by the Supervisory Authority and subject to the terms of that approval.

3.8 Information obtained from or through the International Registry about an entity or natural person shall not be used for marketing or promotional purposes or other commercial purposes unrelated to the use of the International Registry.

3.9 The Registrar may collect and store transaction, technical and payment logs necessary for the efficient and secure operation of the International Registry.

Section 4 ACCESS TO THE INTERNATIONAL REGISTRY

4.1 Access to the International Registry
(a) Subject to paragraph (c), the International Registry may only be accessed through an account or an entry point.
(b) A person who wants to establish an account:
   (i) must apply to the Registrar in accordance with the Procedures; and
   (ii) must provide the Registrar with such information as the Registrar requires to demonstrate the existence of the person and the authority of the individual who is making the application on the person’s behalf.
(c) A person may also search the International Registry under section 8 directly, in accordance with these Regulations and the Procedures.

4.2 Authorised individuals
(a) An account holder may authorise one or more individuals to make or consent to registrations on its behalf. An account holder may also authorise another account holder to make or consent to registrations on its behalf.
(b) Authorisations referred to in paragraph (a) must be provided in accordance with the Procedures.

4.3 Registrations and consents
(a) Subject to paragraph (b), a person may only make or consent to a registration if the person is:
   (i) a named party to the registration; or
   (ii) authorised in accordance with section 4.2 to do so on behalf of a named party to the registration,
and the registration is made or the consent is provided through either an account or an entry point, and in accordance with these Regulations and the Procedures.
(b) A debtor that does not have an account may consent to a registration in accordance with the mechanisms that are provided for this purpose by the Procedures.
Section 5  INFORMATION REQUIRED TO EFFECT REGISTRATION

---

\(^1\) Further consideration needs to be given to the possibility of one object having multiple ISO compliant numbers.

(c) the category of registrable non-consensual right or interest, as listed in the declaration of the Contracting State specified in Section 5.2(b), within which the R-NCRI being registered falls;

(e) documentary evidence pertaining to the R-NCRI, in electronic format;

(g) such evidence as is necessary to enable the Registrar to reasonably conclude, without undertaking specific legal analysis, that the registering person has the authority from the person named in the registration as the holder of that R-NCRI to make the certification and agreement required by Sections 5.2(d) and (f), respectively.

(d) if the interest being acquired by subrogation is not a registered interest, a description of the interest acquired by subrogation and the debtor thereunder, using the format prescribed by the Procedures, or if such interest has been assigned, the file number relating to such assignment.

Registration of a pre-existing right or interest

5.8 The information required to effect the registration of a pre-existing right or interest to which Article 60 of the Convention applies is:

(a) the information referred to in Sections 5.1 (a), (b), (c), (d), (f) and (g);
(b) the name of the Contracting State under whose laws the pre-existing right or interest was constituted; and
(c) the certification of the party named in that registration as the holder of the pre-existing right or interest to which the registration relates, that (i) the pre-existing right or interest has been validly conferred under the laws of the Contracting State specified in Section 5.8 (b), and (ii) all of the registration information being provided to effect the registration is accurate and complete.

Amending a registration (other than an R-NCRI)

5.9 Subject to Section 5.11, the information required to amend a registration (other than a registration of an R-NCRI) is:

(a) the information referred to in Section 5.1(a), (b), (c) and (f);
(b) the consent of the named parties that consented to the registration to be amended and, where a right of consent to discharge a registration has been transferred, the consent of the party having this right in place of the immediate transferor, in each case given under an authorisation;

The registering person of an amendment of an R-NCRI registration must either hold, or be the administrator that is entitled to issue, an R-NCRI authorisation.

Rules for amendments

5.11 The following shall apply in respect of amendments to and discharges of amendments to registrations:

(a) registration of an amendment of information referred to in Section 5.1(c)(i) or a change of a category of registration shall be treated as a new registration in respect of the object or category to which the amending registration refers, with priority ranking from the time the amending registration is complete. The named parties making or consenting to the amendment shall also be taken to have consented under an authorisation to the discharge of the previous registration, which shall be effected automatically;

(b) registration of an amendment in which the information referred to in Section 5.1(b) has been changed shall require the consent of the named parties that consented to that registration and of the named party to be specified in the amended registration, each given under an authorisation;

(c) registration of an amendment in which the information referred to in Section 5.1(d) has been changed shall have no effect on the priority of the original registration for the amended duration of that registration. The foregoing is without prejudice as to whether a new underlying interest has been constituted that is registrable under the Convention; and

(d) when a registration is discharged, the party consenting to that discharge shall be taken to have consented under an authorisation to the discharge of all amendments to that registration, which shall be effected automatically.

The consent requirements of Section 5.11(a) and (b) shall, in the case of an amendment of a registration of an R-NCRI, be limited to the party named in the registration as the holder of such registrable non-consensual right or interest.

Registering fractional or partial interests

5.12 Any registration may specify that:

(a) it covers a fractional or partial interest in mining, agricultural or construction equipment and, if so, the extent of such interest; and/or

(b) multiple named parties hold or have granted an interest evidenced thereby.
Rules for fractional or partial interests

5.13 With respect to an interest referred to in Section 5.12 (a):

(a) an increase or decrease to such interest arising by virtue of a sale or an assignment of an international interest shall be registered as such in accordance with Section 5.1 or 5.4, respectively; and

(b) a decrease in such an interest arising by virtue of payment of a secured obligation shall be partially or wholly discharged in accordance with Section 5.15.

Entity name change

5.14 The International Registry will provide a facility for notice of a change of the name of an accountholder by means of a “name change notification”. For purposes of the foregoing, a “change of name” means either that the accountholder has changed its name, that any rights or interests of the accountholder reflected on the International Registry have become vested in another accountholder as a result of a merger, a change in entity form or otherwise by operation of law, or that a correction is required due to an error in its name. In such a case:

(a) the information required to submit a name change notification to the International Registry is:

   (i) the name currently shown on the International Registry for the entity which is to be changed, and its other identity information;

   (ii) the name which is to supersede the name being changed, and in any case where rights and interests reflected on the International Registry have vested in a different accountholder, the corresponding entity’s other identity information and contact information; and

   (iii) the name and electronic signature of the relevant accountholder and a statement on whose behalf that person is acting, and in any case where rights and interests reflected on the International Registry have vested in a different accountholder:

       (A) the name and electronic signature of such other accountholder and a statement on whose behalf that person is acting; and

       (B) the election specified in Section 5.14(c)(ii)(B);

(b) the Registrar shall confirm that a name change notification satisfies the requirements of this Section 5.14 following the standard set out in Section 4.1, and a name change shall take effect on the later of such confirmation by the Registrar and completion of the actions required in Section 5.14(a)(iii);

(c) when a name change takes effect:

   (i) all rights and interests reflected on the International Registry in which the accountholder specified in Section 5.14(a)(i) is a named party shall, without amending registered information or registering an assignment of such rights and interests, be annotated to advise of the change of name, such annotation to be included in all priority search certificates; and

   (ii) in any case where rights and interests reflected on the International Registry have vested in a different accountholder:
(A) the accountholder in which such rights and interests have vested shall retain its status as an accountholder for the purposes of the International Registry and all authorisations given or held by or on behalf of such accountholder shall remain in full force and effect; and

(B) all authorisations given or held by or on behalf of the accountholder specified in Section 5.14(a)(i) shall either remain in full force and effect or shall be extinguished, as elected by such accountholder; and

(d) a name change shall have no effect on the validity or priority of any registration or other rights or interests.

The Registrar may reverse the name change and remove the name change history in cases where the Registrar satisfies itself that no such name change took place.

Discharge of a registration

5.15.1 The information required to discharge a registration is:

(a) the information referred to in Sections 5.1(a) and (f);

(b) except as provided in Section 5.15.2, the consent of the named party or parties benefiting from the registered interest, or of the party holding the right to consent to the discharge of such interest in accordance with Section 5.15.3, given under an authorisation; and

(c) the file number of the registration to be discharged.

5.15.2 The parties mentioned in Section 5.15.1(b) and (c) do not include the debtor, assignor, subrogor or person subordinating the registered interest.

5.15.3 A named party referred to in Section 5.15.1(b) may electronically transfer to an accountholder, with the consent of that entity, the sole right to consent to the discharge of such registration. Such sole right to consent to the discharge may be further transferred by a holder thereof to another accountholder with the consent of the latter.

5.15.4 The party or parties benefiting from a registration, the party holding the right to consent to the discharge of a registration under Section 5.1(g) or, if such right has been transferred, the transferee of such right, shall have the sole right to consent to

Correcting an error of the International Registry system

5.16 The Registrar may correct an error in a registration or a discharge or the chronological order of registrations, or discharge a registration, if such error is created by a malfunction in the International Registry, provided that such correction or discharge shall be effective only from the time it is made and shall have no effect on the priority of any other registration. If such correction or discharge would change the registered information that would otherwise appear on a priority search certificate, notice that such correction or discharge has been made by the Registrar shall appear on all priority search certificates relating to the equipment.

The Registrar shall promptly give notice of any such correction or discharge to the named parties in the original registration and, if different, the registering person, other parties with registered interests in that equipment, and those who have
conducted a priority search on that equipment since the time of the original registration.

Alternatively, the Registrar may request the named parties to the original registration to amend or discharge that registration, leave that registration in place as registered, or seek an order from a court with jurisdiction under Article 44(1) of the Convention.

Closing room

5.17 The International Registry may provide a closing room facility ("closing room") permitting accountholders to assemble the information required to effect a registration in advance of completing such registration and, in the case of multiple registrations in respect of one or more objects, to establish the chronological order of such registrations. The Appendix to these Regulations describes the closing room, including the conditions and procedures for:

(a) assembling information prior to any registration taking effect;
(b) entering registrations into the International Registry data base containing such information; and
(c) making such registrations searchable, and establishing the order, date and time of entry of such registrations in the International Registry data base;

and in the cases of (b) and (c) above, for the purposes of Articles 18 (4) and 19 of the Convention.

Court orders

5.18 The Registrar may make, amend or discharge a registration on the Registry without following the procedures set out elsewhere in this Section 5 if it is ordered to do so by a court of competent jurisdiction in the place where the Registrar has its centre of administration.

Section 6 CONFIRMATION AND NOTICE OF REGISTRATION

6.1 In this Section, the term "registration" includes, where appropriate, an amendment, extension, or discharge of a registration or transfer of the right to consent to the discharge of a registration.

6.2 The International Registry shall send prompt electronic confirmation of a registration to the named parties, the registering person and all other persons entitled to receive notice of that registration under Section 5. The receipt or non-receipt of such confirmation does not imply that the registration has or has not been effected, that fact being determinable solely by means of a priority search.

6.3 When a registration is effected relating to an object, an electronic notice thereof shall be sent to the named parties and registering person of any other registration which has not been discharged relating to that object.

6.4 The confirmation and notice referred to in Sections 6.2 and 6.3, respectively, shall include the registered information specified in Section 5 relating thereto and the file number of the registration.

6.5 Named parties may electronically elect not to receive the notices referred to in Section 6.3. Such elections shall require digital signatures. Accountholders may request not to receive electronic notices in respect of one or more objects of equipment or registrations.
Section 7  CONSENTS

7.1 Where a section of these Regulations states that the consent of a party to a transaction is required to a proposed action on the Registry and the party is an accountholder, the consent is to be provided under an authorisation.

7.2 Where a section of these Regulations states that the consent of a party to a transaction is required to a proposed action on the Registry and the party is not an accountholder, the consent is to be provided in accordance with the Procedures.

Section 8  SEARCHES IN THE INTERNATIONAL REGISTRY

8.1 Searches of the International Registry in respect of an object shall be made using only the serial number for that object that is specified in Section 5.1(b)(i).

Such a search may be by means of a priority search or informational search, as set out in Sections 8.2 and 8.3, respectively. A Contracting State search and an accountholder search may also be made, as set out in Sections 8.5 and 8.6, respectively. A search, other than a self-search pursuant to Section 8.7, may be performed by any person who complies with the Procedures, whether or not that searching person has a specific interest. A self-search of a particular accountholder (including any of its controlled entities) may be performed only by the administrator or replacement administrator of the entity in question where that administrator or replacement administrator complies with the Procedures. All searches shall be performed by electronic means.

8.2 A "priority search" is a search for registration information using the criterion specified in Section 8.1. Such information is searchable for purposes of Articles 19(2) and (6) of the Convention and Article XVIII(1) of the Protocol.

8.3 An "informational search" is a search (other than a priority search) that is based on the criterion specified in Section 8.1 but uses such algorithms as may be provided by the Registry system to produce a list of close matches to the entered search data. The results of an informational search, an "informational search listing", shall be a list of all such close matches. The facility to perform such an informational search does not make that information searchable for purposes of Articles 19(2) and (6) of the Convention and Article XVIII(1) of the Protocol.

8.4 A "priority search certificate" is a certificate issued in response to a priority search. It shall:

(a) set out the information required by Article 22(2)(a) or (b) of the Convention, as applicable, and comply with Article 22(3) of the Convention;
