**APPENDIX 1 – TABLE OF DECLARATIONS CAPABLE OF BEING MADE UNDER THE
CONVENTION AND AIRCRAFT PROTOCOL**

PART I - COMMENTARY

Introduction

1. This Memorandum has been prepared by the UNIDROIT Secretariat to assist States and Regional Economic Integration Organisations in their preparation of declarations under the *Convention on International Interests in Mobile Equipment* (the Convention) and the *Protocol to the Convention on International Interests in Mobile Equipment on Matters Specific to Aircraft Equipment* (the Aircraft Protocol).

2. The Convention and Aircraft Protocol provide for the making of declarations by Contracting States and Regional Economic Integration Organisations.¹ The complexity of the system of declarations, and the fact that declarations affect the rights and obligations of Contracting States, mean that particular care must be exercised by Contracting States in making their declarations. This Memorandum is intended to ensure that Contracting States are able to make their declarations in full compliance with the terms of the Convention and the Aircraft Protocol. A table of all of the declarations that may be made by Contracting States and Regional Economic Integration Organisations under the Convention and Aircraft Protocol is found at **Appendix 1**.

Background

3. During the development of the Convention and the Aircraft Protocol it became clear that the solutions advocated for some of their provisions might run so counter to the legal traditions of certain States as to make those provisions potentially unacceptable to those States. One example was the default provisions permitting the exercise of extra-judicial remedies, although these provisions were also generally seen as crucial to making the benefits of asset-based financing and leasing more widely available under the new international system. The solution adopted was to give Contracting States the possibility of making choices in respect of these matters under the Convention and the Aircraft Protocol through a system of declarations.

4. The system of declarations provided for under the Convention and the Aircraft Protocol is an essential element in the decisions to be taken by Contracting States regarding the policy objectives, and in particular the commercial policy objectives, that they see fit to pursue in the matter of the acquisition of aircraft equipment.

Types of declarations

Introduction

5. The declarations provided for under Article 54(2) of the Convention, and Articles 48(2) of the Convention and XXVII(2) of the Aircraft Protocol,² are mandatory declarations. All other declarations provided for under the Convention and the Aircraft Protocol are optional in nature.

Mandatory declaration (Contracting States)

6. The Convention provides for one mandatory declaration to be made by Contracting States. This is the declaration, provided for by Article 54(2) of the Convention, as to whether or not certain remedies may only be exercised with leave of the court. Article 54(2) of the Convention provides that this declaration *must* be made at the time of a Contracting State's ratification, acceptance, approval of, or accession to, the Aircraft Protocol. For this reason, instruments of ratification, acceptance, approval of, or accession to, the Aircraft Protocol will not be able to be accepted by the

¹ Except where the context indicates otherwise, references in this Memorandum to Contracting States also includes Regional Economic Integration Organisations.

² The declarations provided for under Article 48(2) of the Convention and Article XXVII(2) of the Aircraft Protocol are addressed to Regional Economic Integration Organisations.

Depositary unless they are accompanied by the mandatory declaration under Article 54(2) of the Convention.

7. However, a Contracting State that has previously deposited a declaration under Article 54(2) of the Convention upon its ratification of, or accession to, the Rail, Space or MAC Protocols³ is not required to deposit another declaration under Article 54(2) upon its subsequent ratification of, or accession to, the Aircraft Protocol.⁴

Opt-in declarations

8. Opt-in declarations are those declarations which must be lodged by a Contracting State in order for a provision of the Convention, as implemented by the Aircraft Protocol, to have effect in relation to that State. The provisions of the Convention and Aircraft Protocol in respect of which opt-in declarations may be made are:

- Convention: Article 60; and
- Aircraft Protocol: Articles VIII, X, XI, XII, and XIII.

Opt-out declarations

9. Opt-out declarations are those declarations which must be lodged by a Contracting State in order for a provision of the Convention, as implemented by the Aircraft Protocol, *not* to have effect within that State. The provisions of the Convention and Aircraft Protocol in respect of which opt-out declarations may be made are:

- Convention: Articles 8(1)(b), 13, 43, and 50; and
- Aircraft Protocol: Articles XXI and XXIV(2).

Declarations relating to a Contracting State's Own Laws

10. Certain optional declarations, which relate to a Contracting States own laws, are neither opt-in nor opt-out. These are the declarations which may be made in respect of the following provisions:

- Convention: Articles 39, 40, and 53; and
- Aircraft Protocol: Articles XIX and XXIX.

Declaration relating to territorial units

11. There is one declaration relating to the application of the Convention to territorial units which does not fall within any of the above categories, namely:

- Convention: Article 52.

Mandatory declarations (Regional Economic Integration Organisations)

12. Article 48(2) of the Convention provides for a mandatory declaration to be made by Regional Economic Integration Organisations, at the time of their signature, acceptance, approval or accession, specifying the matters governed by the Convention in respect of which competence has been transferred to that Organisation by its Member States. Article XXVII(2) of the Aircraft Protocol

³ The *Luxembourg Protocol to the Convention on International Interests in Mobile Equipment on Matters Specific to Railway Rolling Stock*, signed in Luxembourg on 23 February 2007, the *Protocol to the Convention on International Interests in Mobile Equipment on Matters Specific to Space assets*, signed in Berlin on 9 March 2012, the *Protocol to the Convention on International Interests in Mobile Equipment on Matters Specific to Mining, Agricultural and Construction Equipment (MAC Protocol)*, signed in Pretoria on 22 November 2022.

⁴ Article XXXI of the Aircraft Protocol provides that declarations made under the Convention shall be deemed to have been also made under the Aircraft Protocol unless stated otherwise.

provides for a mandatory declaration to be made by Regional Economic Integration Organisations, at the time of their signature, acceptance, approval or accession, specifying the matters governed by the Aircraft Protocol in respect of which competence has been transferred to that Organisation by its Member States.

Guide to the use of declaration forms

Role of Depositary, Supervisory Authority and Registrar

13. Under Article 62 of the Convention and Article XXXVII of the Aircraft Protocol, instruments of ratification, acceptance, approval or accession are to be deposited with UNIDROIT, which is designated the Depositary. Under Article 56(2) of the Convention and Article XXXII(2) of the Aircraft Protocol, any declaration or subsequent declaration or any withdrawal of a declaration made under the Convention or the Aircraft Protocol is to be notified in writing to UNIDROIT, as Depositary.

14. Under Article 62 of the Convention and Article XXXVII of the Aircraft Protocol, UNIDROIT, as Depositary, has the duty *inter alia* of providing the Supervisory Authority and the Registrar (established in accordance with Article 17 of the Convention) with a copy of each instrument of ratification, acceptance, approval or accession and each declaration or withdrawal or amendment of a declaration. UNIDROIT further has the duty of informing the Supervisory Authority and the Registrar of the date on which each such instrument and each such declaration or withdrawal or amendment of a declaration are deposited, so that the information contained therein may be easily and fully available.⁵

15. Under Article 23 of the Convention, the Registrar is required to maintain a list of declarations, withdrawals of declaration and the categories of non-consensual right or interest communicated to the Registrar by the Depositary as having been declared by Contracting States in conformity with Articles 39 and 40, and the date of each such declaration or withdrawal of a declaration.

Declaration forms for Contracting States: introduction

16. Article 56 of the Convention provides that no reservations may be made thereto but that declarations authorised by Articles 39, 40, 50, 52, 53, 54, 55, 57, 58 and 60 may be made in accordance with those provisions. Article XXXII of the Aircraft Protocol provides that no reservations may be made thereto but that declarations authorised by Articles XXIV, XXIX, XXX, XXXI, XXXIII and XXXIV may be made in accordance with those provisions. Declaration forms are provided for all of these declarations, except declarations authorised by Articles 57 and 58 of the Convention and Articles XXXIII and XXXIV of the Aircraft Protocol.⁶

Use of the declaration forms

17. Contracting States may lodge declarations in any form that complies with the requirements of the Convention and Aircraft Protocol. However UNIDROIT, as Depositary, encourages all Contracting States to base their declarations on the declaration forms in this memorandum so as to ensure that their declarations comply with the requirements of the Convention and Aircraft Protocol.

⁵ Convention, Article 62(2)(c); Aircraft Protocol, Article XXXVII(2).

⁶ Declarations under Article 57 of the Convention and Article XXXIII of the Aircraft Protocol relate to declarations which are made after the entry into force of the Convention and Aircraft Protocol for a Contracting State – Contracting States making subsequent declarations should use the relevant forms provided in this memorandum. Article 58 of the Convention and Article XXXIV of the Aircraft Protocol provide for the notification of withdrawal of a declaration (except a declaration under Article 60 of the Convention, which may not be withdrawn): there is no standard form for such withdrawals.

18. Except for the *mandatory* declaration provided for under Article 54(2) of the Convention, all the declarations under the Convention and Aircraft Protocol are optional, so that Contracting States are under no *obligation* to complete any of the forms relating to these declarations.

Selection of alternative forms

19. Contracting States that choose to make one or more of the optional declarations under the Convention and the Aircraft Protocol should consider that for the declarations in respect of some of the Articles there are *alternative* forms, reflecting the different possibilities permitted under the provisions in question.

20. For example, Form No. 1 deals with the case where a State wishes to make a *specific* declaration in relation to Article 39(1)(a) of the Convention (that is, declaring specific categories of non-consensual right or interest). Form No. 2 deals with the case where a State wishes to make a *general* declaration in relation to Article 39(1)(a) of the Convention. It follows that a State wishing to make a declaration in relation to Article 39(1)(a) should select only one of the alternative forms.

21. Another example arises in relation to Forms Nos. 20 and 21. Form No. 20 deals with the case where a State wishes to make a declaration that it will apply Article X of the Aircraft Protocol only in part. Form No. 21 deals with the case where that State wishes to make a declaration that it will apply Article X in its entirety. It follows that a State wishing to make a declaration in relation to Article X should select only one of the alternative forms.

Compatibility of declarations

22. Contracting States should ensure that their declarations are compatible with each other. For example, a non-consensual right or interest may be the subject of a declaration in relation to either Article 39 of the Convention (when its effects do not depend on registration) or under Article 40 of the Convention (where registration is required) but not both. Contracting States should therefore ensure that the specific categories of non-consensual right or interest that are included in any declaration that is made in relation to Article 39(1)(a) (Form No. 1 or No. 2) are exclusive of any categories of non-consensual right or interest that are included in any declaration under Article 40 (Form No. 6).

23. Another example arises in relation to the declaration that a Contracting State may make in relation to Article 55 of the Convention (not to apply the provisions of Article 13 or Article 43 or both, wholly or in part) (Forms No. 14-17). If a Contracting State were to make a declaration under Article 55 that excluded Article 43 in its entirety but did not exclude Article 13, this would create a gap in the important issue of jurisdiction to grant relief under Article 13.

24. In relation to Article XI of the Aircraft Protocol (Remedies on insolvency), a Contracting State wishing to make a declaration in relation to that Article may opt for Alternative A in its entirety or Alternative B in its entirety; however, a declaration may not be made covering only a part of either of the alternatives, and nor may a declaration be made combining selected elements of Alternative A and Alternative B. (If a Contracting State does not make a declaration in respect to Article XI of the Aircraft Protocol, its domestic insolvency law will continue to apply.)

Declaration forms for Regional Economic Integration Organisations

25. Under Article 48(1) of the Convention and Article XXVII(1) of the Aircraft Protocol, Regional Economic Integration Organisations which are constituted by sovereign States and have competence over certain matters governed by the Convention and Aircraft Protocol may sign, accept, approve or accede to those instruments in the same way as States and, where they do so, under Article 48(3) of the Convention and Article XXVII(3) of the Aircraft Protocol, all references in the Convention and Aircraft Protocol to "Contracting State" or "Contracting States" or "State Party" or "State Parties" are to apply equally to such Organisations where the context so requires.

26. Under Article 48(2) of the Convention and Article XXVII(2) of the Aircraft Protocol, such a Regional Economic Integration Organisation must lodge declarations with the Depository at the time of its signature, acceptance, approval or accession, specifying the matters governed by the Convention and Aircraft Protocol in respect of which competence has been transferred to that Organisation by its member States. Pursuant to the same provision, such an Organisation is also under an obligation to notify the Depository promptly of any changes to the distribution of competence, including any new transfers of competence, specified in its declaration.

27. Thus, once a Regional Economic Integration Organisation has signed, accepted, approved or acceded to the Convention and Aircraft Protocol and lodged such declarations with the Depository in accordance with Article 48(1) and (2) of the Convention and Article XXVII(1) and (2) of the Aircraft Protocol, that Organisation may make the declarations authorised under the Convention and Aircraft Protocol as regards those matters in respect of which competence has been transferred to it, as specified in its declaration. The capacity of the member States of the Organisation to make the declarations as regards those matters for which competence has been transferred to the Organisation will also be affected (on this matter see also paragraphs 32-37).

28. The declarations for which declaration forms are provided in this memorandum concern the declarations that may be made under Article 48(2) of the Convention and Article XXVII(2) of the Aircraft Protocol, both of which declarations are mandatory in nature.

Language of declarations

29. Given that Contracting States' declarations under the Convention and Aircraft Protocol play an essential part in the operation of the international registration system and given the complexity of the issues involved in these declarations, and in particular the important consequences that will therefore flow from a Contracting State's precise choice of words in the framing of each such declaration, the interest of guaranteeing efficiency in the operation of the international registration system militates strongly in favour of the employment of the minimum number of languages possible in the framing of such declarations. **Especial significance therefore attaches to the decision taken by the UNIDROIT Governing Council at its 81st session (September 2002), and confirmed by resolution of the General Assembly of UNIDROIT Member States (December 2002) to urge Contracting States to the Convention and the Aircraft Protocol to ensure that, when they submit declarations under the Convention or the Aircraft Protocol, that they do so in one or other of the Institute's working languages, English and French.**

Subsequent declarations, withdrawal of declarations, and timing considerations

30. Article 57 of the Convention and Article XXXIII of the Aircraft Protocol provide for a State Party to make subsequent declarations after the date on which the Convention and Aircraft Protocol have entered into force for that State. Article 58 of the Convention and Article XXXIV of the Aircraft Protocol provide for the withdrawal by States Parties of their declarations. The following points should be noted in relation to the making of subsequent declarations, and the withdrawal of declarations:

- (i) By virtue of the mandatory nature of the declaration under Article 54(2) of the Convention, which must be made at the time of a Contracting State's ratification of, or accession to, the Aircraft Protocol, a Contracting State would be able to withdraw its declaration under Article 54(2) of the Convention only if that withdrawal were to be accompanied by a subsequent declaration under Article 54(2) of the Convention and taking effect at the same time as withdrawal.
- (ii) One effect of Article 57 of the Convention and Article XXXIII of the Aircraft Protocol is to permit declarations, other than the mandatory declaration under Article 54(2) of the Convention, to be made at any time, even where a provision is expressed to permit declarations to be made at the time of ratification or accession to the Convention or the Aircraft Protocol.

Presentation of declaration forms

31. UNIDROIT, as Depositary to the Convention and Aircraft Protocol, has prepared model forms that Contracting States and Regional Economic Integration Organisations may refer to when drafting their declarations under the Convention and Aircraft Protocol. These forms are organised as follows:

- Model Declaration Forms for Use by States Under the Convention (Part II);
- Model Declaration Forms for Use by States Under the Aircraft Protocol (Part III);
- Model Declaration Forms for Use by Regional Economic Integration Organisations under the Convention and Aircraft Protocol (Part IV).

Choices in relation to declarations

Decisions relating to declarations determined by Contracting States

32. The question as to which declarations a Contracting State will make under the Convention and Aircraft Protocol is one for each Contracting State to determine in accordance with its own circumstances.⁷ Further, UNIDROIT in its capacity as Depositary under the Convention and Aircraft Protocol has no role in evaluating the competence of a Contracting State (having regard, for example, to its internal constitutional arrangements) to make a declaration, and UNIDROIT will accept a declaration that is deposited with it in compliance with the requirements of the Convention and Aircraft Protocol.

33. There are many reasons why a Contracting State may decide not to make a declaration in relation to a particular article of the Convention or Aircraft Protocol. For example:

- in the case of an “opt-out” declaration - a Contracting State may want the relevant article to apply to it and therefore not want to make a declaration that would exclude the application of the article;
- in the case of an “opt-in” declaration – a Contracting State might regard the making of the declaration as being unnecessary if the laws and policies already applicable in the Contracting State achieve the same effect as would be achieved by the making of the declaration;
- a Contracting State may be a member of a regional economic integration organisation that has signed, accepted, or approved, or acceded to, the Convention (pursuant to Article 48 of the Convention) and the Aircraft Protocol (pursuant to Article XXVII of the Aircraft Protocol), and the internal arrangements of that organisation may affect the capacity of the Contracting State to make a declaration in relation to a particular article.

34. In respect of the latter point, and in light of the declarations made by the European Union pursuant to the Cape Town Convention and Aircraft Protocol, and the regulations referred to in those declarations, it is the understanding of the Depositary at this time that:⁸

- The declarations made by the European Union (EU) under the Convention and Aircraft Protocol, together with the regulations referred to in those declarations, affect the capacity of Member States to make declarations under Aircraft Protocol Articles VIII, X and XI – however, their capacity to make the other declarations under the Convention and Aircraft Protocol is not affected;

⁷ The exception is the mandatory declaration under Article 54(2) of the Convention, which must be made at the time of a Contracting State’s ratification of, or accession to, the Aircraft Protocol. UNIDROIT is not able to accept the deposit of an instrument of ratification or accession in relation to the Aircraft Protocol if the relevant State has not also submitted that declaration.

⁸ This understanding reflects the conclusions drawn by UNIDROIT from a seminar (“The European Community and the Cape Town Convention”) that it convened in Rome on 26 November 2009. The summary of the proceedings of the seminar is available at: www.unidroit.org/english/conventions/mobile-equipment/main.htm

- EU Member States would neither be able to make a declaration under Aircraft Protocol Article VIII, nor to amend their national law on the subject of Article VIII;
- EU Member States would not be able to make a declaration under Aircraft Protocol Articles X and XI, but would be able to amend their national laws so as to produce the same substantive outcomes as if a declaration had been made.

European Union Member States implementing Articles X and XI by domestic legislation

35. As explained in the latter point, EU Member States are affected in their capacity to make declarations under Articles XXX(2) and XXX(3) of the Aircraft Protocol with regard to Articles X and XI of the latter, as a consequence of the declarations made by the European Union at the time of its accession to the Convention and Aircraft Protocol and the regulations referenced therein. EU Member States, however, may amend their national law to obtain the same substantive outcomes of a declaration under Articles XXX(2) and XXX(3). Concerning the amendment of national legislation to mirror a declaration under Article XI of the Aircraft Protocol, the latest version of Official Commentary of the Convention and the Aircraft Protocol (paragraph 3.151)⁹ now states the following:

“Notification of such legislation to UNIDROIT as Depositary under Article XXXVII(2)(iii), if conforming to the same requirements as are prescribed for declarations by Article XXX(3), is treated for all purposes, including Article XXX(4), as the equivalent of a declaration under Article XXX(3), and EU Member States who are Contracting States are expected to follow the same notification process as for declarations by non-EU Member States by notifying UNIDROIT as Depositary of the relevant legislation, which UNIDROIT will then transmit to all Contracting States in accordance with Article 62(2)(a)(iii) of the Convention and Article XXXVII(2)(a)(iii) of the Protocol”.

36. In light of the above authoritative interpretation, and given the utmost importance of providing Contracting States with an opportunity to promote understanding of the situation with respect to their rights and obligations under the Convention and Aircraft Protocol, EU Member States are *strongly encouraged* to notify the Depositary of any domestic legislative action seeking to achieve the same substantive outcome as a given declaration under the Cape Town Convention and its Protocols, with particular regard to Article XI (“Remedies on insolvency”) of the Aircraft Protocol. Although this would ultimately be a matter for each EU Member State, the adoption of a consistent approach should be encouraged. The information received will be duly transmitted to all Contracting States and included in the States Parties and other relevant pages on the UNIDROIT website. Because UNIDROIT, as Depositary, may have no role in determining whether the national law, as amended, results in the same substantive outcome as a given declaration, Contracting EU Member States are requested to expressly specify the declaration under the Convention or Aircraft Protocol that the information provided is meant to relate to.

Information about other laws and policies relating to the matters covered by the Convention and Aircraft Protocol

37. In addition to the foregoing, other information, including information which could potentially promote understanding the application of the Convention and Aircraft Protocol in a particular Contracting State, is not required to be provided by Contracting States to the Depositary.

38. UNIDROIT welcomes information that a Contracting State may choose to provide to about their laws and policies relating to the matters covered by the Convention and Aircraft Protocol. Contracting States are not required to provide any such information which, if provided, would be provide at the discretion of that State. Any such information would be separate and distinct from any declarations that the Contracting State may make under the Convention and Aircraft Protocol. The following format is recommended for the transmission of any such information to UNIDROIT:

⁹ 5th Edition of the Official Commentary of the Convention and the Aircraft Protocol, 2022.

"[Name of State] makes available to UNIDROIT the following information about the laws and policies relating to the matters covered by the Convention and Aircraft Protocol:"

39. The information, which may include references to, or copies of, laws and policies and which may be either general or specific to a particular topic or issue covered by the Convention and Aircraft Protocol, is made available on the UNIDROIT website in order to provide Contracting States with an opportunity to promote understanding of the situation with respect to their rights and obligations under the Convention and Aircraft Protocol.

40. UNIDROIT has already received information from several Member States, including references to or copies of laws and policies – either general or specific to a particular topic or issue covered by the Convention and Aircraft Protocol – which is currently compiled and available on the UNIDROIT [website](#). Such information also appears at the end of the webpage relating to declarations made by the relevant States.

PART II

MODEL DECLARATION FORMS FOR USE BY STATES UNDER THE CONVENTION

Form No. 1

Specific declaration under Article 39(1)(a)¹⁰

(Name of the State)declares that the following categories of non-consensual right or interest (*list the relevant categories*)^{11 12 13}

 have priority under its law over an interest in an object equivalent to that of the holder of a registered international interest and shall have priority over a registered international interest, whether in or outside insolvency proceedings [*and whether registered before or after (name of the State)'s (ratification) (acceptance) (approval) (accession)*].¹⁴

¹⁰ A Contracting State should use this form if it wishes to list the specific categories of non-consensual right or interest which under its law have priority over the equivalent of a registered international interest and which are to have priority over a registered international interest, whether in or outside insolvency proceedings. For a general declaration covering all categories of non-consensual right or interest, Form No. 2 should be used.

¹¹ The categories to be listed by a Contracting State cannot be broader, but may be narrower, than the categories which, under the law of the Contracting State, have priority without registration over an interest equivalent to that of the holder of an international interest.

¹² These categories may include specific categories to be created by the relevant Contracting State after the deposit of its declaration (cf. Article 39(2)).

¹³ A Contracting State that uses this form to list specific categories of non-consensual right or interest must ensure that those specific categories of non-consensual right or interest are exclusive of any categories of non-consensual right or interest that are included in a declaration made under Article 40 (Form No. 6).

¹⁴ Strike out the words "and whether registered before or after (name of the State)'s (ratification) (acceptance) (approval) (accession)" if the specified categories of non-consensual right or interest will not have priority over an international interest registered prior to the date of the ratification, acceptance, approval or accession (cf. Article 39(4)). If the words are not struck out, the name of the State and that State's mode of becoming a Contracting State (i.e. by ratification, acceptance, approval or accession) should be specified.

Form No. 2
General declaration under Article 39(1)(a)¹⁵

(Name of the State)declares that all categories of non-consensual right or interest which under its law have [*and will in the future have*]¹⁶ priority over an interest in an object equivalent to that of the holder of a registered international interest shall have priority over a registered international interest, whether in or outside insolvency proceedings [*and whether registered before or after (name of the State)'s (ratification) (acceptance) (approval) (accession)*].¹⁷

¹⁵ A Contracting State should use this form if it wishes to lodge a general declaration that all categories of non-consensual right or interest which under its law have priority over the equivalent of a registered international interest are to have priority over a registered international interest, whether in or outside insolvency proceedings. For a declaration covering specific categories only Form No. 1 should be used.

¹⁶ The words "and will in the future have" should be struck out if the declaration is not intended to extend to categories to be created after the deposit of the declaration pursuant to Article 39(2).

¹⁷ Strike out the words "and whether registered before or after (name of the State)'s (ratification) (acceptance) (approval) (accession)" if the specified categories of non-consensual right or interest will not have priority over an international interest registered prior to the date of the ratification, acceptance, approval (cf. Article 39(4)). If the words are not struck out, the name of the State and that State's mode of becoming a Contracting State (i.e. by ratification, acceptance, approval or accession) should be specified.

Form No. 3
Specific declaration under Article 39(1)(b)¹⁸
