

EBRD Legal Transition Programme and UNIDROIT Joint Workshop

Strengthening EBRD and UNIDROIT Cooperation to Facilitate Legal Transition – Access to Credit, Sustainable Finance, Climate Change and Dispute Resolution

The work of the EBRD and the International Institute for the Unification of Private Law (UNIDROIT) is mutually beneficial. UNIDROIT's international best practice instruments in the fields of international private law and commercial law directly support EBRD products and services across a range of sectors. Simultaneously, the EBRD Legal Transition Programme facilitates the promotion and implementation of UNIDROIT instruments across the world.

The EBRD will welcome a high-level delegation from UNIDROIT to London for a workshop aimed at further strengthening cooperation between the EBRD and UNIDROIT. The workshop will provide an opportunity for EBRD staff to learn more about how UNIDROIT's instruments in the fields of access to credit, sustainable finance, climate change and dispute resolution support EBRD projects and the Bank's Legal Transition Programme.
